OBJECTIVE

Detail-oriented Computer Science and Engineering undergraduate focused on engineering highly scalable full-stack applications and workflow automation solutions. Proficient in Java, Python, and React, with a strong academic record (8.89 CGPA) and proven experience designing responsive architectures, constructing enterprise automated testing suites, and leading campus technical communities.

EDUCATION

Degree	Specialization	Institute	Year	per
B.Tech	Computer Science & Engineering	Mohan Babu University(AP)	2023 - 2027	8.89 CGPA
Intermediate	Physics, Chemistry, & Mathematics	Sri Chaitanya Junior College	2021 - 2023	72.0%
SSC	General	Dr KKR Gowtham Concept School	2020 - 2021	100%

RELEVANT COURSEWORK

Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Software Engineering.

TECHNICAL SKILLS

Programming:	Java (Advanced), Python, JavaScript, TypeScript
Frontend:	React.js, HTML5, CSS3, Tailwind CSS, Vite
Backend:	Spring Boot, REST APIs, Node.js, Express.js (MERN)
Databases:	MySQL, MongoDB
Tools & Platforms:	Git, GitHub, VS Code, ServiceNow Platform (ATF & Flow Designer)
Core CS Subjects:	Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Computer Networks, Software Engineering

EXPERIENCE

ServiceNow Virtual Intern <i>SmartBridge & AICTE</i>	<i>May 2026 - Present</i>
- Configured enterprise workflows utilizing ServiceNow Administration fundamentals, Flow Management, and system reporting infrastructure. - Designed automated tests with the Automated Test Framework (ATF) Essentials to optimize system reporting processes and verification steps. - Gained core technical competency in next-generation automated workflows by completing advanced training in Agentic AI.	
Student Mentor & Core Team Member <i>Coding Club [MBU]</i>	<i>Sep 2024 - Present</i>
- Coached over 50+ junior students in core Data Structures & Algorithms, Object-Oriented Programming (OOP), and programming fundamentals in Java and Python. - Facilitated interactive coding workshops and focused debugging sessions, significantly reducing peer development blocks and logic errors.	

PROJECTS

PrepSuite AI - Candidate Evaluation & Placement Prep Platform	<i>React, Tailwind CSS, Node.js, Express.js, MongoDB</i>
- Developed a responsive full-stack candidate evaluation platform replicating enterprise recruitment pipelines with custom glassmorphism layouts. - Engineered an interactive Coding Sandbox Module optimized for multi-language execution tracking, runtime evaluation, and algorithmic analysis. - Designed secure state-locking mechanisms within an Aptitude Arena along with an AI Mock Booth supporting continuous user response-tracking nodes.	
GameVerse - PC Gaming Platform Portal	<i>React, TypeScript, Spring Boot, MySQL</i>
- Architected a highly performant, responsive web portal enabling seamless game library cataloging, search routing, and collection browsing. - Built a sleek, modern user interface using React and TypeScript, prioritizing client-side rendering speed and fluid UI workflow transitions. - Constructed secure backend microservices using Spring Boot integrated with a MySQL database to ensure safe, scalable user data persistence.	

CERTIFICATIONS

- ServiceNow Virtual Internship Certification** | SmartBridge & AICTE — Validated skills in ServiceNow Administration, ATF, and Agentic AI workflows (May 2026).
- Generative AI** | Google Cloud — Hands-on experience building and deploying cloud-native AI solutions using foundational models.
- Intro to Open GPT Models** | Infosys — Verification of large language model architectures, prompt engineering, and LLM orchestration.
- Data Science Foundations** | Oracle — Practical proficiency in core database architectures, predictive modeling, and data analytics.

LEADERSHIP

- Led organizing teams for university-level hackathons and technical coding boot camps, managing end-to-end event logistics, student outreach, and coordinating challenge statements.
- Represented Mohan Babu University in competitive national engineering events, including VIT-AP University's Hackathon X and the AI Autonomous Hackathon 2025 at VRSEC Vijayawada.
